-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Drawings***

1. Figures 1 and 2 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Specification***

2. The disclosure is objected to because of the following informalities:

On page 1, line 21, delete "bland", and insert --brand--.

On page 1, line 22, delete the second occurrence of "it".

The specification refers to the present invention's "inventors" in several places (for example, page 3, line 10, page 7, lines 8 and 14). However, the present application only identifies one inventor.

Appropriate correction is required.

### ***Claim Objections***

3. Claims 1-5 are objected to because of the following informalities:

In claim 1, line 4 of the claim, include a transitional word and make appropriate amendments to correct the grammar of the claims.

Art Unit: 2857

On line 5 of the claim 1, after "value", insert --,--.

On line 8 of the claim 1, after "value", insert --,--.

Claims 2-5 depend on claim 1 and are objected to for the same reasons.

Appropriate correction is required.

***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claim 4 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 4 refers to the odd orders and the even orders. Claim 4 depends upon claim 2, which only refers to a signal odd order and a single even order.

***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Bowers et al. (US Patent No. 5,739,698) teaches machine fault detection using a spectrum analyzer for the current.
